

SILEXA WIPE X6 COCKTAIL-MODULE

PERFECTLY MIXED, DIVERSE & HYGIENIC.

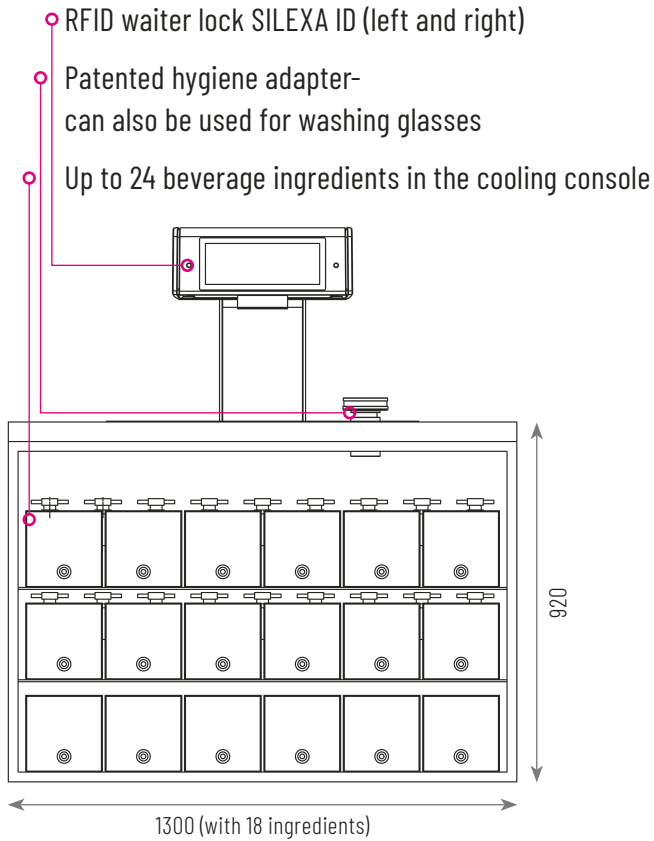

watch the video

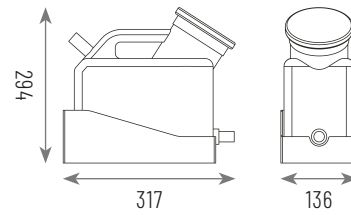

- + Patented hygiene adapter: automatic rinsing and integrated drain for a clean workplace within a few seconds
- + Exact dosage of up to 24 beverage ingredients
- + Consistent quality through pre-programmed recipes (special versions possible with a greater number of taps)
- + Each cocktail is made within 2-5 seconds in the shakers – thus no waiting period for your guests
- + Optimized operating speed: Alphabetical cocktail selection, clear credit list in the register
- + Instead of counting and measuring bottles for hours, SILEXA WIPE X6 sends your sales straight to your register
- + Even without a bartender, you can offer your customers over 100 cocktails at any time
- + Reduce the use of goods and personnel while increasing your efficiency
- + Wine, beer, soft drinks and other beverages can be integrated into SILEXA WIPE X6
- + The ingredients can be in bag-in-boxes, plastic containers, or bottles
- + All taps can be assigned 'vacant' so there will never be a missing ingredient in any cocktail
